

Tragically in Australia, one in 130 pregnancies ends in stillbirth.

Every day, approximately 830 women around the world die from preventable causes related to pregnancy or childbirth.

Mercy Perinatal wants to change these statistics but they need your help.

## Join us at the 2019 Mercy Health Foundation Ball for a night of entertainment and to help raise funds for Mercy Perinatal.

Mercy Perinatal is a three-pillar centre of excellence in clinical care, education and research dedicated to improving the health of mothers and babies now and into the future.

Mercy Perinatal strives to keep little hearts beating for the first 300 days after conception. Developmentally these first nine months are arguably the most important months of our whole lives.

Our aim is to bring mothers and babies safely home.
